## A 3D SET TO BE ASSEMBLED

Le Negresco is a prestigious hotel that forms part of our heritage. It is situated on the Promenade des Anglais in Nice. The hotel houses some exceptional period furniture.

Mrs AUGIER, its proprietor, was a great patron of the arts, she assembled a collection of contemporary art and artworks by the greatest masters of French art.

She is said to have been very eccentric and close to her dogs. It is your turn to imagine your own décor at Le Negresco and immerse yourself in one of the finest hotels in the world.

## Build your own salon

**1** Place the plates in front of you and choose the different elements.

**2** Assemble the various elements together.

**3** Stick both sides of the large backdrop décor with adhesive tape.

**4** Put down the assembled décor and add a tiled or parquet floor. Now it's up to you to decorate the room, paint and stick paintings in the frames. And don't forget to add some chairs to the décor!
